

The news that the FCC is proposing LPFM's taking over FM translators will affect the station I listen to whenever I'm in my car, which is a lot. K-LOVE is one of the few radio stations that is encouraging, positive and wholesome. My daughters, ages 16 & 20 listen to it often also. I am a Kindergarten school teacher in the Fayette County Public Schools and K-LOVE is so meaningful to me as I travel to school, giving me time to meditate and become calm and patient and ready for my day with 24 5-year olds. Please do not take the wonderful radio station off the air. Our country needs more of these, not less. Thank you, Mari Case
